## FOR IMMEDIATE RELEASE

### UPDATE FOR ROUTE 101 PAVING PROJECT SOUTH OF EUREKA

**EUREKA** – Caltrans has announced a project update for paving currently being done on Route 101 south of Eureka from one mile south of the Tomkins Hill interchange to just north of the Herrick Avenue interchange.

Beginning Thursday, July 12, daytime work hours will be 6 a.m. to 6 p.m., weekdays. Traffic will be restricted to one lane alternating between northbound and southbound directions on Route 101 during the length of project. Motorists may experience minor traffic slowdowns.

There will be intermittent daytime ramp closures during paving near Tompkins Hill Road, Fields Landing, King Salmon, Humboldt Hill, and Herrick Avenue. The project paving schedule has been coordinated to allow access from adjacent onramps or offramps in vicinity of the work area. Motorists will be able to use an alternate route.

The contractor is Mercer Fraser Company of Eureka. For more information, please contact Caltrans Resident Engineer Kelly Timmons at 707-725-1081.
